Commissioner Johnson expressed that there is no need to revise the EAP and that the priority should be to work on initiatives contained in the EAP.

Commissioner Kazmier related that her goal relating to LEED for Cities is to complete research, discern the City of Jackson's current LEED score and have the City apply for the LEED for Cities subsidized and supported program.

Commissioner Kloos spoke regarding Section 6-B of the EAP and the use of city-owned lots for its implementation. She expressed that she is at a loss for how to implement the initiatives regarding land use as listed in 6-B and that she is frustrated that her efforts have received no response. This frustration extends to the lack of response related to the Pocket Parks for Pollinators initiative she developed with Ms. Mara Mackay.
